Day beginning at Sunrise

On the day you were born, you not only gained the magic of your horoscope, you also gained the myths and meanings of a sky full of stars. Not all the stars, just those that formed links to your natal planets via what is called parans. By considering the star parans in your life you will be encountering a whole new (though very old) layer of myth and meaning to your chart. Welcome to your Stars.

Each star has a unique and wonderful pattern of visibility for any given place on earth. Some stars will be visible for a period in the night, yet later in the year they will fail to appear and be lost to the view of stargazers. Others will also rise or set at night, but instead of disappearing from view altogether, they will lose touch with the horizon and spend the whole night being visible in the starry sky. Yet both these sorts of stars will eventually return to rising or setting during the night, with each individual star doing so on a particular date of the year. However, there is also another set of stars that do not partake of this dance and are always visible, and never sink beneath the horizon, spending every night circling around the pole.

To the Egyptians the stars were deities and so these annual star patterns had strong religious significance. The never setting circumpolar stars were considered to be the Immortals for these are the deities that never died, the stars that never set. But the stars that rose or set during the course of the year were the deities who moved between the world of humans and the world of the Immortals, or the Underworld, the place the stars journeyed when they disappeared from view. These were the deities who communed with humans, the deities who were approachable and open to prayer.

Such stars would, according to their unique rhythm, reappear at set calendar dates. If they reappeared from the Underworld, they would rise just before, or with, the

Natal Star Report - Anne Frank

rising sun and be called the Heliacal Rising Star. This star was considered the ruling deity for a period of time until the next star in the annual cycle re-emerged from the Underworld. Or, if the star came back from the realm of the Immortals and once again touched the earth, they would appear to set just before, or with, the rising sun and be called the Heliacal Setting Star. This star can also be considered the ruling deity for a period of time until the next star in the cycle appears to descend from the Immortal realm. So important were these times of the return of a star that the Egyptians based their religious calendar around such events and built temples designed to capture the returning star's light onto the altar of the deity.

Thus, there will be at least two stars that rule the period of time and place in which you were born. One star will be the most recent to have returned from the Underworld and the other would have returned from the realm of the Immortals. Both stars have significance for you. Occasionally more than one star can return on the same day so some people will have more than one Heliacal Rising Star or more than one Heliacal Setting Star. These stars, and their meanings, are guiding principles in your life.

Your Heliacal Rising Star is:

Aldebaran - The Eye of the Bull

To be guided by your principles and integrity

This is the star that has been walking the path of the underworld and has now emerged to be visible in the world of humans. This star, the Heliacal Rising Star, is the star that you were born under and it will bear gifts to you from the land of your past, your family and your genetics. It is your gift, the jewel or the treasure, which your ancestors handed you at your birth. This star is a theme in your life; helps to build your philosophies, and can at times take on a vocational pulse.

Aldebaran is one of the great stars in the sky. It is one of the Royal Stars of Persia, being the Watcher in the East, the great cornerstone marking the spring equinox. In this capacity Aldebaran was the god Mithra, or Ahura Mazda, the slayer of the Cosmic Bull. Mithra was a great military god who gave victories to his followers, but only if they followed the strictest procedure in his worship. Aldebaran's connection to Mithra, and the beliefs and customs linked to the god, enable us to derive a more three-dimensional meaning for Aldebaran, namely that success will

Natal Star Report - Anne Frank

come but only through ethical integrity and constructive objectives. Mithra was a warrior king who also wore the title 'lord of contracts'. He considered all exchanges as sacred and therefore oversaw the business of his followers, insisting on their honesty and purity. If they failed they would be condemned to an ordeal of fire. This was usually enacted, by the worshippers of Mithra, in forcing a suspected person to run through a tunnel of fire. Their survival was Mithra's judgement of innocence.

Being one of the four Royal Stars of Persia, it is a very powerful star and offers the possibility of glory, success or happiness, but only if a particular nemesis can be overcome. The challenge for Aldebaran is one of integrity and honour. Greatness can be achieved, but you will be challenged on the integrity and purity of your thoughts and dealings. The presence of Aldebaran in a chart indicates that you will have to face moral dilemmas which challenge your integrity. Success will be presented to you. However, along the journey you will be tempted to compromise your position, to go against your own integrity. Be aware that when this star is involved, any compromise of your integrity will have negative results, and all that is gained could be lost very rapidly. With Aldebaran in such an important position on the day of your birth you will be flooded with strong principles, ethics, things about which you feel strongly. These principles are a vital part of your success, but you will be challenged on them. You will have to fight to maintain the purity of what you believe, and any wavering of your integrity could cause you to lose ground rapidly. You will be guided by your principles.

Your Heliacal Setting Star is:

Diadem - The Woman's Crown

To believe that sacrifice is a necessary component of growth

This is the star that has been living amongst the immortals of the pole, and has now, at the time of your birth, returned to earth. This star is known as the Heliacal Setting Star and is a gift or treasure given to you from your spirit, from your immortal soul, from your daemon. This star represents goals that you reach for; vocations that motivate you, and the spiritual pathways that you seek. This star represents your doorway to the immortals, or your journey towards a fulfilled life. That which gives you the greatest happiness.

Diadem is a star linked to feminine strength and, in such an important position on the day of your birth, it talks of your ability and desire to quietly go about your business without seeking glory or personal fame. There will be times of sacrifice but in that sacrifice you can find great strength and dignity. Indeed you will be inclined to believe that life requires some sacrifice in order for real gains to be made.

Stars that were on the Angles at the moment of your birth...

At the moment you were born the following star or stars were on your Cross of Matter. This is the cross made up of your Ascendant/Descendant axis and your MC/IC axis. Known also as the angles of a chart, these four points are your connection between the spiritual, or cosmic, world and the physical world in which you live. A star on one of the angles acts like a filter or lens between the world of your spirit and the material world, the world of form, shape and expression. Such a star will have a strong influence on your lifestyle, and the daily unfolding of your physical, emotional, and financial life.

Ras Algethi - The Natural Order

The philosopher, a person who seeks the meaning of life

Although this star is in the constellation of Hercules it is, however, linked to the older meaning of this constellation, which is to give honour or prayer to the gods. Indeed, this star is related to the natural order of things, the natural and correct attitude of humans in awe of the gods or nature. To be born with this star on your angles is thus a statement that you will devote your life to a higher cause, about which you are passionately committed and/or quietly determined. There is a natural need to submit to or honour something larger than yourself. This can give a sense of purpose to one's life. Ras Algethi does not define the object of your devotion, but hopefully it is to a noble cause, rather than, its more difficult expression, adoration of another person.

Stars that are linked to your planets...

Natal Star Report - Anne Frank

Stars form links or parans to your planets, via the angles of your chart. If a planet is at a key point of its daily movement, either Rising, Setting, Culminating or At the Bottom of the Sky, and at the same time a star is also at one of these key points in its daily movement, then the star is in paran to that planet. The angle that the star occupies also tells us the period of your life when the mythology of the star will be expressed. If the star is rising then it affects your youth, if culminating then the prime of your life, if setting the latter years, and if lower the star is a foundation, or summary statement concerning your life.

Only the visible planets are used in this report, as the outer planets are generational and do not have meaning at a personal level.

Some Stars are at a Phase of Curtailed Passage

Some of the stars that are in paran to your natal planets are in a stage of their cycle known as Curtailed Passage. These stars were visible in the night sky at sunset, and were still visible in the night sky at sunrise. These stars have therefore lost contact with the earth, as they are not seen to touch the horizon during the course of the night and are thought to be walking with the immortals, and are not open to the prayers of humans. In this situation the stars seem to express themselves in a more fated manner, and you will find it more difficult to deal with, or embrace, the themes of these stars in your life. Therefore, in this report, any star that is of Curtailed Passage should be read with these emphases in mind.

Some Stars are at a Phase of Arising and Lying Hidden

Some of the stars that are in paran to your natal planets are in a stage of their cycle known as Arising and Lying Hidden. These stars can at times be seen at the latitude of your birth, however, in this period of time they are not visible in the night sky at sunset, and will still not be visible in the night sky at sunrise. So these stars have lost contact with the earth, and have returned to the underworld, the land of the dead. In this situation the stars will express themselves in a more fated manner, as they are no longer concerned with the land of the living, and the Egyptians believed that they could no longer hear your prayers. Thus you will struggle with these stars, as their meanings and myths will be more powerfully and bluntly expressed in your life. In this report, any star that is in a phase of Arising and Lying Hidden should be read with this emphasis in mind.

Some Stars are Circumpolar

Some of the stars which are influencing your chart are circumpolar. This means

Natal Star Report - Anne Frank

that, for your birth location, they are visible every night, for the whole night, regardless of the time of the year. They are permanently in the realm of the immortals. These stars should be read with greater emphases for they have a tendency to express themselves in a more black and white manner due to their lack of contact with the ways of humans.

Stars of Your Youth

All of these stars are rising as they form a paran to a planet. Therefore, all of these stars will express themselves in your childhood and young adulthood. Simply put, these stars influence the first third of your life. With these stars shaping your childhood, they will have an impact on your parents, schooling and social skills, and in that manner can have a large impact on your whole life. These stars are:

Acubens - The Scarab Beetle of Life, with Mars  in Youth

The craftsperson; to create or build ideas or objects

This star is linked with the energy of life-giving, the Gateway of life, and thus to the concept of resurrection. This star may sit quietly in your life, shaping some of your spiritual attitudes and giving you a sense or belief in the concept of resurrection, either in a religious sense or simply as an optimistic outlook on life in all its diverse forms. With Acubens in paran to your Mars, your actions and motivation is to create beautiful ideas or objects. This can be in the world of craft, design or architecture, or it can be in ideas. If active in your childhood, then you would have been taught the value of careful work to create your outcomes. If Acubens is active with your Mars in your adult years, then this attitude runs through your hobbies and profession.

Stars of Your Prime

All of these stars are culminating as they form a paran to a planet. These stars will be influencing you in your adulthood, or the second third of your life. These stars will therefore have an impact on your career, adult relationships, children and financial prosperity. In addition, some of these stars will be doubly emphasised as they will not only be present and active in the prime of your life but will be shown, later in this report, to be coming from a deeper source, coming from the foundation stones of your being. These stars are discussed here, as it is in this period of your life that you first encounter their impact they will, however, simply grow stronger as your life unfolds. The stars that are active in the prime of your

life are:

Acumen - One of the Stings of the Scorpion, with Saturn 
in Prime

Hardships in life, fuelling motivation or anger

This influence of this star comes from your foundations, the roots of the tree of your life, your family history. In this period of your life you start to experience its energy in your social and professional world, but it grows stronger as you grow older until it eventually adds to the overall meaning of your life.

This is one of a pair of nebulae its twin being Aculeus. Both of these stars, Aculeus and Acumen, are the tail of Scorpio, the sting, and tend to be linked to attacks, not only physical, but also mental, verbal or spiritual. Acumen carries the negative or shadow side, so there are attacks that weaken, attacks that can slowly but surely erode you. With Acumen in paran to your Saturn, you will battle against the hardships in your life or the hardships of others. If Acumen is linked to your Saturn in your childhood, then you may have found that your father, or other authority figures, were harsh, or suffered from hardship themselves. If Acumen is active in the adult years of your life, then its paran to Saturn can be seen in your profession, for Saturn is what we try to build with our life. In this case you will be striving to help those in hardship, or facing hardship yourself to fulfill your own passions. The shadow side to this stellar combination is some level of brutality and cruelty which brings hardship to others.

Alderamin - The King, with Sun  in Prime

A person noted for their dignity and honour

Circumpolar

At this latitude this star is circumpolar and therefore never touches the earth. Thus you should delineate the meaning in a more forceful, or black and white manner. Refer to the beginning of this report to refresh yourself with the meaning of such a star.

Alderamin symbolises a balanced male energy, in harmony with the feminine and the earth, but within the context of focused, concentrated energy of the masculinity, rather than the more passive, intuitive energy of the feminine. Gentle

power, receptive power. With Alderamin in paran with your Sun you are you seen as a person who maintains your dignity and strong purposeful focus regardless of the circumstances surrounding you. If active in your youth, then you would have had a strong role model who taught you that your principles and beliefs were more important than your comfort. If the star is active in your adult years, then you will identify yourself with a cause or an idea and devote yourself to its protection or propagation. However, this endeavor will be pursued with dignity and quiet strength.

Bellatrix - The Left Shoulder of the God, with Sun  in Prime

Successful, but via the hard or physical route

Arising Lying Hidden That the time of your birth, and for this latitude, this star is in the phase of Arising and Lying hidden and is therefore to be read more in the extremes of its meaning, rather than a more balanced expression. Refer to the beginning of this report to refresh yourself with the meaning of such a star phase.

This influence of this star comes from your foundations, the roots of the tree of your life, your family history. In this period of your life you start to experience its energy in your social and professional world, but it grows stronger as you grow older until it eventually adds to the overall meaning of your life.

With Bellatrix, the left shoulder of Orion, in paran with your Sun, you are a person who can be very successful in a practical, physical manner. You are the skilled engineer in the physical or material world. If this star was active in your youth, then your father-figure was a person who was skilled in a hands-on style, or had to gain their success at a high personal price. You have learnt, therefore, that work and failure are a part of success. If active in your adult years, Bellatrix talks of proficiency in dealing with the physical world. This could be expressed in a range of ways, from the athlete to the engineer, or a even a potter, for all of these require skill in dealing with the physical world. Whatever the actual manner of this star's expression in your life, there is always Bellatrix's central theme: that you are a person who will take the hard road to achieve your goals. Facing failure or defeat will be part of your life, but by facing this defeat you can gain the greatest success.

Betelgeuse - The Right Shoulder of the God, with Saturn 
in Prime

Success in an arduous or a proletarian field

Arising Lying Hidden That the time of your birth, and for this latitude, this star is in the phase of Arising and Lying hidden and is therefore to be read more in the extremes of its meaning, rather than a more balanced expression. Refer to the beginning of this report to refresh yourself with the meaning of such a star phase.

This influence of this star comes from your foundations, the roots of the tree of your life, your family history. In this period of your life you start to experience its energy in your social and professional world, but it grows stronger as you grow older until it eventually adds to the overall meaning of your life.

Betelgeuse in paran with Saturn gives a level of success in difficult or proletarian fields. This star, which is the right shoulder of Orion, promises much, but when linked with Saturn it demands that your successes be based in practicality. For this reason, you will find yourself undertaking projects that are demanding, sometimes tedious, perhaps even physically arduous. Or perhaps involvd with the problems of everyday life and everyday people. If you seek to achieve in these areas, or in this style of action, then you are successful.

El Nath - The Horn of Taurus, with Sun  in Prime

To strongly and physically focus on one's goals

This influence of this star comes from your foundations, the roots of the tree of your life, your family history. In this period of your life you start to experience its energy in your social and professional world, but it grows stronger as you grow older until it eventually adds to the overall meaning of your life.

With El Nath in paran with your Sun, you are seen as a person who is forthright, military, or assertive and goal-orientated. For El Nath is the tip of the horn of the bull; the point of attack. And with this star in paran with your Sun, your identity is intertwined with this imagery. If active in your youth, your father-figure would have represented these concepts. He may have been a very assertive person who

was involved with aggression or weapons in some manner, or in contrast, he may have been a person affected by such weapons. If, however, El Nath is active in your adult years, then it will have a say in your profession and the manner in which you define yourself. You may have a profession that requires aggression, or focused action, physical or verbal. This could be police work, crisis health worker, barrister, the military. Or you may simply be a person who has a reputation for getting the job done, even if it means standing on a few toes. El Nath is the ability to go in hard and achieve your outcomes. It is up to you to ensure that others are not hurt by this natural forcefulness in your chart.

Stars of Your Latter Year:

All of these stars are setting as they form a paran to a planet. These stars will be influencing you in your later years or the last third of your life. They will be influential in the nature of your reputation, the manner in which you retire, and the autumn of your life, its joys or its sorrows. These stars are:

Acubens - The Scarab Beetle of Life, with Jupiter **4** in
Latter Years

Joy from one's children; to be blessed with fruitfulness and vitality

This star is linked with the energy of life-giving, the Gateway of life, and thus to the concept of resurrection. This star may sit quietly in your life, shaping some of your spiritual attitudes and giving you a sense or belief in the concept of resurrection, either in a religious sense or simply as an optimistic outlook on life in all its diverse forms. With Acubens in paran with your Jupiter, fortunate events occur when you are pursuing your creative drive. This can be gaining great joy from your children and/or any other areas of life where you are creative, original and endeavoring to produce something that is unique. This is a most fortunate combination, indicating that your life ventures will be blessed with fruitfulness.

Arcturus - The Hunter and the Farmer, with Moon  in
Latter Years

Concerned with the health of others, physical, emotional or spiritual

Curtailed Passage

That the time of your birth, and for this latitude, this star is in the phase of Curtailed Passage and is therefore to be read more in the extremes of its meaning, rather than a more balanced expression. Refer to the beginning of this report to refresh yourself with the meaning of such a star phase.

This is the star in the northern skies which symbolises the transition from the nomadic hunter-gatherer to the herder-cultivator-ploughman villager. Thus Arcturus embodies the symbolism of guarding, learning, teaching, leading. Leading and protecting people as they embrace a new life style. One who can lead the way, one who has the vision or the spirit to take the first step. With Arcturus in paran to your Moon then you will naturally assume a leadership role amongst those who need nurturing. This may involve the quality of life for many or just for your family. If Arcturus was active in your younger years then you have learnt from your mother-figure the importance of strength, and of the willingness to try different ideas or options in order to provide support for those who need it. On the other hand, if this star is active in your career, then your work will involve improving, by experimentation or by determination, the quality of life for others.

Arcturus - The Hunter and the Farmer, with Saturn  in
Latter Years

The engineer, the medical researcher, the explorer - the one who finds new pathways

Your actions, career or hobbies will find you exploring new concepts and new methods. Never willing to accept the established thinking in an area, and always prepared to do it your way.

D 

Deneb Algedi - The Ancient Law Giver, with Venus ♀ in
Latter Years

A sombre attitude to the conventions of art, or the social customs of relationships

Deneb Algedi in paran to your Venus will influence your appreciation of the arts and the form of your recreation. Deneb Algedi is the ancient law-giver and adds weight and seriousness to every planet it touches. In paran with your Venus it will draw you to the more serious side of the arts, that is to say the more classical, or more established, artistic expressions. This could show itself simply in the type of music you like, or in the type of novel, book or film to which you are drawn.

M 

Menkar - The Whale, with Venus ♀ in Latter Years

Socially confronting, or seeking to represent others

Menkar is the alpha star of Cetus the whale, and this whale represents the human collective unconscious, that can erupt like a beast from the deep bearing, with equal probability, moments of great collective insight, or chaos and mayhem. So with Menkar, symbolic of these unconscious forces in the human collective, linked to your Venus, it indicates upheavals and changes in your social life, personal relationships and social values. Your personal life problems can become public, and be role models or catalysts for law or social attitude changes, in large or small groups. You may also have your own social values challenged and find yourself in the position of having to accept and understand customs or social problems or issues you have never even thought about. The social relating side to your life is like a leaf blowing in the wind of the collective. Learn to listen to your

intuition, and also learn to be adaptable. And when you confront others with changes and social situations that they are not used to, do it with gentleness and compassion.

Zubén Elgenubi - The Southern Pan of the Scale, with

Venus ♀ in Latter Years

Manipulating the social order for better or worse

With Zubén Elgenubi in paran with your Venus, you are concerned with the rights of different groups in your community, or the rights of other life forms, animals, plants, the whole ecosystem. For this star is one of a pair of stars, its twin being Zubén Eschamali, with each star representing one of the pans of the scale of Libra. The word zuben means claw, as the pans of Libra were originally the claws of Scorpio. Both of these stars have a common theme, with Zubén Elgenubi showing us the light, brighter side. Strongly involved in social reform or social justice, this star has higher ideals than its northern partner, for its prime motive is not personal gain but rather to benefit the group. This star is involved with reform, and will resist the temptation for personal gain or power. So, with this star in paran with your Venus, its reforming, concerned energy is focused into different social groups, or different religions. You may be attracted towards relationship with members of a minority group, or the nature of your relationships may be different, non-mainstream. On the other hand, you may want to give of your time and energy freely to help a minority group. Whatever its expression, you do want to have an impact on the social environment which impinges on your life.

The Hearthstone of Your Life

All of these stars are on the Nadir, the bottom of the sky, as they form a paran to a planet. These stars will express themselves, firstly, as the foundation of your life, the roots from which you grow, and secondly, as the summation of your life. These stars can be considered your hearthstone; they are there from the beginning, influencing you from behind the scenes, but only really become visible in your life as you grow old. Some of these stars would have first expressed themselves in the prime of your life and were discussed in that section. These hearthstone stars are:

Acumen - One of the Stings of the Scorpion, with Saturn 
in Foundation

Hardships in life, fuelling motivation or anger

This star expresses itself in the prime of your life but continues to grow in strength as you age. Eventually it becomes one of the main defining features of your life. For more details on the meaning of this stellar combination, look again at the stars of your prime.

Alphard - The Heart of the Serpent, with Mercury  in
Foundation

The revealer or holder of secrets, an investigating mind, a sharp tongue

Alphard in paran to your Mercury influences how you think and talk, what interests you, and how you learn. Alphard is the Heart of the Serpent and is linked in a ruthless manner to all things to do with nature, human rights, women and indeed all things feminine. With this combination, therefore, you will have a probing mind with the ability to remain focused on an issue. However, this focus can easily turn into obsession, and you can become ruthless in the pursuit of your interest. Alphard with Mercury will also involve you with secrets: holding them or discovering them, solving mysteries, or pursuing the truth.

Bellatrix - The Left Shoulder of the God, with Sun  in Foundation

Successful, but via the hard or physical route

Arising Lying Hidden That the time of your birth, and for this latitude, this star is in the phase of Arising and Lying hidden and is therefore to be read more in the extremes of its meaning, rather than a more balanced expression. Zuben Elgenubi - The Southern Pan of the Scale, with

Moon  in Foundation

A person who wants to give aid to others

With Zuben Elgenubi in paran with your Moon, you are a compassionate person who can feel the distress of others. You are therefore motivated to help improve the lives of others, via direct help, or through an interest in the ecological or financial environment. For this star is one of a pair of stars, its twin being Zuben Eschamali, with each star representing one of the pans of the scale of Libra. The word zuben means claw, as the pans of Libra were originally the claws of Scorpio. Both of these stars have a common theme, with Zuben Elgenubi showing us the light, brighter side. This star is involved with reform, and will resist the temptation for personal gain or power. Being in paran with your Moon, Zuben Elgenubi channels this compassion into your emotions, giving you a strong feeling to help others. You may have learnt this from your mother-figure, for she may have also been a compassionate, caring individual. In addition, you may find that you are drawn to careers involving healing, or working with women and children.

Star Legend

Each star has a pictogram that will help you remember the nature of the star as well as give you some simple information. There are three components to each star pictogram; the star magnitude symbol, the constellation image and the letter of the alphabet giving the star's common proper name.

The star symbol will tell you the brightness of the star.

★ = A star whose magnitude is less than 2.0. This is a bright or very bright star clearly visible even within a large city.

✦ = A star whose magnitude is between 2.0 and 2.9. This is a small star, clearly visible even within a city unless there is a great deal of light pollution, but better seen away from the city lights.

◇ = A star whose magnitude greater than 3.0 This is a faint star that would possibly not be seen if you live in a city, but would be visible on a clear night in the country. The human eye can see stars up to a magnitude of 6.0 provided the viewing conditions are good.

▽ = A star whose magnitude is variable, sometimes bright at other times not bright.

This is the pictogram for Denebola another star that is not as bright as Regulus in the constellation Leo and ...

This is the pictogram for Zosma another star of similar brightness to Denebola also in the constellation Leo.
